

Child Assault Prevention

Child Assault Prevention
Big Brothers Big Sisters

To develop programs for the strength of children and families through service and education and to be proactive in preventing the assault and neglect of children.

Services:

CAP: One-hour workshops presented by certified facilitators to children and adults through the school systems and other venues. Role-playing and scenarios are used to focus the children's attention on recognizing child assault and abuse, whether it comes from bullies, strangers, or known adults. These workshops are designed to reach children of all abilities and ages, including preschoolers, elementary, teens, and special needs.

radKIDS: A personal empowerment safety education workshop presented by certified instructors and engages children in a multi-sensory, fun, and interactive environment to respond to dangerous scenarios. Children are taught safety education from Home Safety to Defense Against Abduction by doing simulated activities. Children become empowered learning to replace the fear, confusion, and panic of dangerous situations with confidence, personal safety skills and self-esteem.

Additional Information:

CAPP's programs are presented by volunteers who are paid a minimal stipend for each workshop presented. To volunteer, please contact Starr Pierce to schedule a training session.
